## LCAMP Conference

The LCAMP Conference has quickly grown into a must-attend event for VET teachers, VET centre managers, and stakeholders in advanced manufacturing. Each year, we welcome around 200 participants from across Europe and beyond, including Canada, the US, the UK, and Turkey, making it a truly international gathering.

This conference is a unique opportunity to connect, learn, and collaborate with peers while exploring cutting-edge innovations in education and technology. Together, we will focus on the practical implementation of Learning Factories and Industry 4.0 technologies in vocational and higher vocational education.
